

The Venue

Arts and history@Istituto degli Innocenti

It has worked over six centuries to help children and families. It was originally established as a hospital for abandoned children and designed by Brunelleschi in the XV century as one of the first renaissance works. Recently the museum has been renovated with new sections of arts and history. It is definitively worth a visit.

Why this Venue

It is not a high-tech hall....About 10 years ago, in April 2007, Francesco organized here the SALT Congress, he liked this historical, central venue.

Francesco and A. Godoli (the architect of the Villa restoration) @ Istituto degli Innocenti

In 2007 a special talk, and two social events were dedicated to Galileo and Villa Il Gioiello whose restoration was just being completed. Since then Francesco spent some of his time to promote the Villa, for its historical value, and as a gathering place for today's scientists. Prof. Righini has provided a few pages of a book on the Villa (in press and Francesco is a co-author).

Our Social Dinner will be at Il Gioiello on Thursday June 8 Please read info in booklet !

To reach Il Gioiello you can a) walk uphill; b) take a free bus ride; c) take a private taxi.

a) To walk: you can follow Galileo's route outlined in the following page starting from Ponte alle Grazie to Pian dei Giullari (about 2.8 km uphill !). You can stop to admire one of the houses of Galileo on Costa S. Giorgio.

b) Bus ride: take one of the two free city bus reserved for the Conference participants. The buses will leave Viale Matteotti (see attached map) at 7:45 pm and stop in Via Pian dei Giullari at the intersection with Via Torre del Gallo. From there walk for about 5 min to Villa Il Gioiello.

c) Private Taxi: call (+39)0554242 or 0554390 and ask for Villa Il Gioiello - Pian dei Giullari 42 (in front of Trattoria Omero). The cost depends on where your pick-up is (12-20) euro.

For returning to central Firenze we have organized free mini-vans. Each can take 8 people and leave at 10.30 or 11:30 pm from Villa Il Gioiello and reach P.zza SS. Annunziata in about 20 min. You are welcome to call a private taxi if you wish to reach your hotel at any time during the dinner.

If you have reserved dinner for an accompanying person please remember to pay in cash at the Conference desk upon your arrival.

Top floor: Caffè' del Verone

Scientific programme

Monday June 5, 2017

Time	Speaker	Title
11:00-13:45		Open desk
13:45-14:00	LOC	Welcome
